

## Tips for Bluetooth Printing from a Computer (PC)

Printing on a Polaroid PoGo™ Instant Mobile Printer from a computer is possible by using an external USB Bluetooth adapter called a “Bluetooth dongle”. Simply follow the steps below.

### To Pair:

1. Before you insert the dongle into your computer, install the software that came with the dongle.
2. Once the software is installed, plug the Bluetooth dongle into a free USB port on your computer.
3. Once the dongle has been recognized by your computer, right-click on the Bluetooth icon in the bottom right hand corner of your computer monitor.
4. Click on “Add Bluetooth Devices”
5. Select the Polaroid printer.
6. Enter the passcode 6-0-0-0.

### To Print:

1. Right-click on the image you want to print.
2. Scroll down to “Send to”.
3. Click on “Bluetooth”.
4. Select the Polaroid printer.
- 5.

### Suggested Compatible Bluetooth Dongles:
